

**APC Annual Meeting 2018 Clinical Programme
(ASPAN)
Friday September 7, 2018**

7.30am	Registration opens, tea and coffee
8.20am	Welcome to meeting
	Morning Session - Pancreatitis Update
8.30-10.00am	Acute pancreatitis
	<i>Moderator Dr Saurabh Gupta</i>
	Panel: Dr J Obando, Dr A Metz, Dr C Chandroussi, Dr T O'Rourke, Dr P Chou
	<i>Topics</i>
	Diagnosis and defining causality
	Severity assessment and does it matter?
	The first 72 hours - imaging, IV fluids, feeding (NG vs NJ), role of early ERCP
	Revised Atlanta classification and new AGA guidelines (Jan 18)
	WOPN and infected necrosis - step up approach (discuss Dutch Pancreatitis Group study), antibiotics
	Cholecystectomy timing
	Role of pancreatic enzymes
10.00am	Morning Tea
10.30-12pm	Chronic pancreatitis
	<i>Moderator Dr Jorge Obando</i>
	Panel: Dr C Chandroussi, Dr S Philcox, Dr D Croagh, Dr D Pavey, Dr P Chou
	<i>Topics</i>
	Diagnosis modalities including cross-sectional imaging and EUS
	Causality including inherited syndromes
	Pancreatic insufficiency - diagnosis and management
	Strictures and stones - are they relevant and what is the best management?
	Smouldering pancreatitis - what to do...
	Pain management - endoscopic, surgical, medication, coeliac block
12.00pm	Lunch

	Afternoon Session - Pancreas lesions Update
1.00-3.00pm	Solid Lesions
	<i>Moderator Dr Tom O'Rourke</i>
	Panel: Dr C Chandroussi, Dr S Gupta, Dr J Obando, Prof A Gill, Dr P Chou Dr C Campbell
	<i>Topics</i>
	Diagnosis - templated radiology, EUS (CE-EUS), Ca 19.9, neuroendocrine markers, IgG4
	Preoperative biliary stenting
	Defining borderline resectability
	Neoadjuvant therapy
	When to operate, which operation, perioperative octreotide, islet cell autotransplantation
	Interventional endoscopic techniques in non-operative candidates
	Surveillance
3.00pm	Afternoon tea
3.30-5.00pm	Cystic Lesions
	<i>Moderator Dr Andrew Metz</i>
	Panel: Dr D Croagh, Dr J Obando, Prof A Gill, Dr S Gupta, Dr P Chou, Dr C Campbell
	<i>Topics</i>
	Which cysts should we worry about?
	Diagnosis - making sense of the various guidelines
	What is the risk of progressions to PDAC for MD-IPMN and BD-IPMN
	Imaging, EUS, ERCP and pancreatoscopy in IPMN
	When to operate and on whom?
	Experimental treatments
	Surveillance
5.00pm	Keynote: Prof Chris Heeschen, Barts College (UK), Lowy Cancer Research Centre, UNSW (NSW) Tracking and targeting pancreatic cancer stem cells
5.30pm	Meeting Close
7.00pm	Conference dinner - Aquitaine
